

# Preliminary List of Regionally Significant Plants of the Hunter Catchment

## Version 1, January 2003

Stephen Bell, Travis Peake, Terry Tame, John Simpson & Tim Curran  
Hunter Rare Plants Committee, Hunter Region Botanic Gardens

### PART 2: POPULATIONS

| Entry No. | Regional Listing Status | Population Name   | Community Name | Formal Conservation Status | Current Threats | Regional Significance |
|-----------|-------------------------|---|----------------|----------------------------|-----------------|-----------------------|
| 1218      |                         | 1 Acacia ausfeldii population at Home Rule - Cooyal   |                | 3RCa                       | 1               | D R N E               |
| 1219      |                         | 1 Acacia pendula population in Upper Hunter   |                | N                          | 2               | E                     |
| 1220      |                         | 1 Cymbidium canaliculatum population in the Hunter catchment                                |                | N                          | 1 3             | S E                   |
| 1221      |                         | 2 Eucalyptus longifolia population in Cessnock LGA  |                | N                          |                 |                       |
| 1222      |                         | 2 Eucalyptus parramattensis subsp. parramattensis population in Wyong & Lake Macquarie LGAs |                | N                          | 1 2 3           | DA R N                |

### PART 3: VEGETATION COMMUNITIES

| Entry No. | Regional Listing Status | Community Name  | Formal Conservation Status | Current Threats | Regional Significance |
|-----------|-------------------------|---|----------------------------|-----------------|-----------------------|
| 1223      |                         | 1 Ben Halls Gap Sphagnum Moss Cool Temperate Rainforest                                   | TSC-EEC                    |                 | L                     |
| 1224      |                         | 2 Eucalyptus amplifolia Floodplain Woodland   | N                          |                 | T                     |
| 1225      |                         | 1 Eucalyptus camaldulensis Floodplain Woodland  | N                          | 1               | E U                   |
| 1226      |                         | 2 Eucalyptus melliodora Floodplain Woodland in the Muswellbrook, Singleton and Scone LGAs | N                          |                 | T                     |
| 1227      |                         | 2 Eucalyptus tereticornis Floodplain Woodlands in the Upper Hunter Valley                 | N                          |                 | T                     |
| 1228      |                         | 2 Greta Dry Rainforest  | N                          | N               | L                     |
| 1229      |                         | 1 Kurri Sand Swamp Woodland in the Sydney Basin Bioregion                                 | TSC-EEC                    |                 | L                     |
| 1230      |                         | 1 Low Woodland with Heathland on Indurated Sand at Norah Head                             | TSC-EEC                    |                 | L                     |
| 1231      |                         | 1 Lowland Rainforest on Floodplain in the NSW North Coast Bioregion                       | TSC-EEC                    |                 |                       |
| 1232      |                         | 2 Melaleuca armillaris Coastal Headland Scrub   | N                          |                 |                       |
| 1233      |                         | 2 Melaleuca decora Shrublands in the Upper Hunter Valley                                  | N                          |                 | R                     |
| 1234      |                         | 1 Native Vegetation on the Cracking Clay Soils of the Liverpool Plains                    | TSC-EEC                    |                 |                       |
| 1235      |                         | 1 Quorrobolong Scribbly Gum Woodland, Cessnock LGA  | TSC-EEC                    | 1               | L                     |
| 1236      |                         | 1 Sydney Coastal Estuary Swamp Forest in the Sydney Basin Bioregion                       | TSC-EEC                    |                 |                       |
| 1237      |                         | 1 Sydney Freshwater Wetlands in the Sydney Basin Bioregion                                | TSC-EEC                    |                 |                       |
| 1238      |                         | 2 Themeda australis Grassland   | N                          |                 | T                     |
| 1239      |                         | 2 Vine Thickets in Upper Hunter   | N                          | 1               | R U                   |
| 1240      |                         | 1 Warkworth Sands Woodland, Singleton LGA   | TSC-EEC (P)                | 1 2             | L                     |

1241 1 White Box Yellow Box Blakely's Red Gum Woodland  
1242 2 Xanthorrhoea glauca ssp. glauca Woodland
